

EMPOWERING THE NEXT GENERATION THROUGH STEM

ATMIYA Code Club is founded by dynamic **ATMIYA teen Volunteers**, bringing together the liked minded organizations ATMIYA and Sankuratri Foundation to inspire innovation and ignite curiosity in young minds.

ATMIYA wholeheartedly thanks Padma Shri Dr. Chandra Shekhar Garu for making this possible, as well as the **Raspberry Pi Foundation** and **Code Club** for their partnership.

Mission of ATMIYA Code Club:

- ❖ Interactive STEM activities
- ❖ Mentorship from passionate youth
- ❖ A bridge between opportunity and education

Our Teen volunteer mentors have worked tirelessly on this mission, and we're proud to recognize their efforts.
